Dear Mr Ulrich

Thank you for bringing this important issue to the collective attention of local and federal representatives again.

I welcome your commitment and efforts to address the situation facing Gleneagles residents. The ACT Government acknowledges and shares your frustration at the state of NBN connectivity across Canberra. The ACT Government has petitioned the Australian Government and the Minister for Communications on multiple occasions since the commencement of the NBN rollout in the ACT. The ACT Government has made representations in relation to significant shortfalls in NBN coverage across the ACT and the constantly changing NBN rollout schedules that have been released since 2013. I agree that it is an unacceptable situation.

That said, I regret to advise you that the ACT Government is not in a position to commit funds to NBN rollout generally, nor in the manner you have proposed. The NBN is an Australian Government initiative, and the ACT Government is unable to step in and cover the promises and commitments made by the Australian Government.

I regret the inconvenience and disruption this situation causes for you and the Gleneagles community. Thank you again for keeping me informed.

Yours sincerely
